DELA   S1-ED   REFERENCE AUDIO NETWORK SWITCH   13'900.00

Full-size Chassis:
The S1 features a robust 3mm stainless steel chassis with thick aluminium panels for enhanced durability and vibration resistance. **Silver & Black**

Power Supply:
It includes a large transformer and capacitor bank.

Ultra-Low Jitter Clock:
Utilizes an NDK ultra-low jitter clock and supports 10MHz external clock input.

Connectivity:
Equipped with x4 SFP+ compatible ports*1 and x7 Neutrik RJ45 LAN ports. The increasingly important SFP+ ports support 10Gbps SFP+ modules and DELA SFP direct attach cable 'C1.' The RJ45 ports use Neutrik ports, known for their high mating accuracy and robustness.

Link speed selector:
DELA S1 features a front button that allows variable speed adjustment for all ports. The RJ45 LAN ports can be set to 1Gbps, 100Mbps, or 10Mbps, and the SFP+ ports can switch from 1Gbps to 10Gbps.

V1 2025/26 / Prices include 8.1% VAT
Price changes may occur without preannouncement

DELA S5 HIGH RANGE AUDIO NETWORK SWITCH 8'900.00

HS-CC（Highly Stable Chassis Construction）: The top and side panels are made of aluminium, the rear panel is finished with stainless steel hairline processing, and all are supported by a robust 3mm-thick steel base chassis that adds a sense of weight and stability. **Silver & Black**
Power Supply: The power section employs the DELA Super Clear Dynamic Power Supply, which balances both power quality and capacity.
Ultra-Low Jitter Clock: Utilizes an NDK ultra-low jitter clock.
Connectivity: Equipped with x4 SFP+ compatible ports*1 and x7 Neutrik RJ45 LAN ports. The increasingly important SFP+ ports support 10Gbps SFP+ modules and DELA SFP direct attach cable 'C1.' The RJ45 ports use Neutrik ports, known for their high mating accuracy and robustness.
